# Problem Statement: Enhancing Charity & Donations through Fintech & Technology

Charitable donations (like Zakat, Waqf, and Sadaqah) face major challenges in transparency, efficiency, and accessibility. Many Islamic social finance institutions still use old, manual systems, leading to:

**Transparency**  
Donors can't track where their money goes.

**Efficiency**  
Funds take too long to reach those in need.

**Inclusivity**  
Many people (especially the unbanked) struggle to donate or receive aid easily.

# Solution

---

## Blockchain

---

Transparent ledger, blocks and transaction.

## AI/ML

---

Smart fund allocation with impact scoring.

## DeFi

---

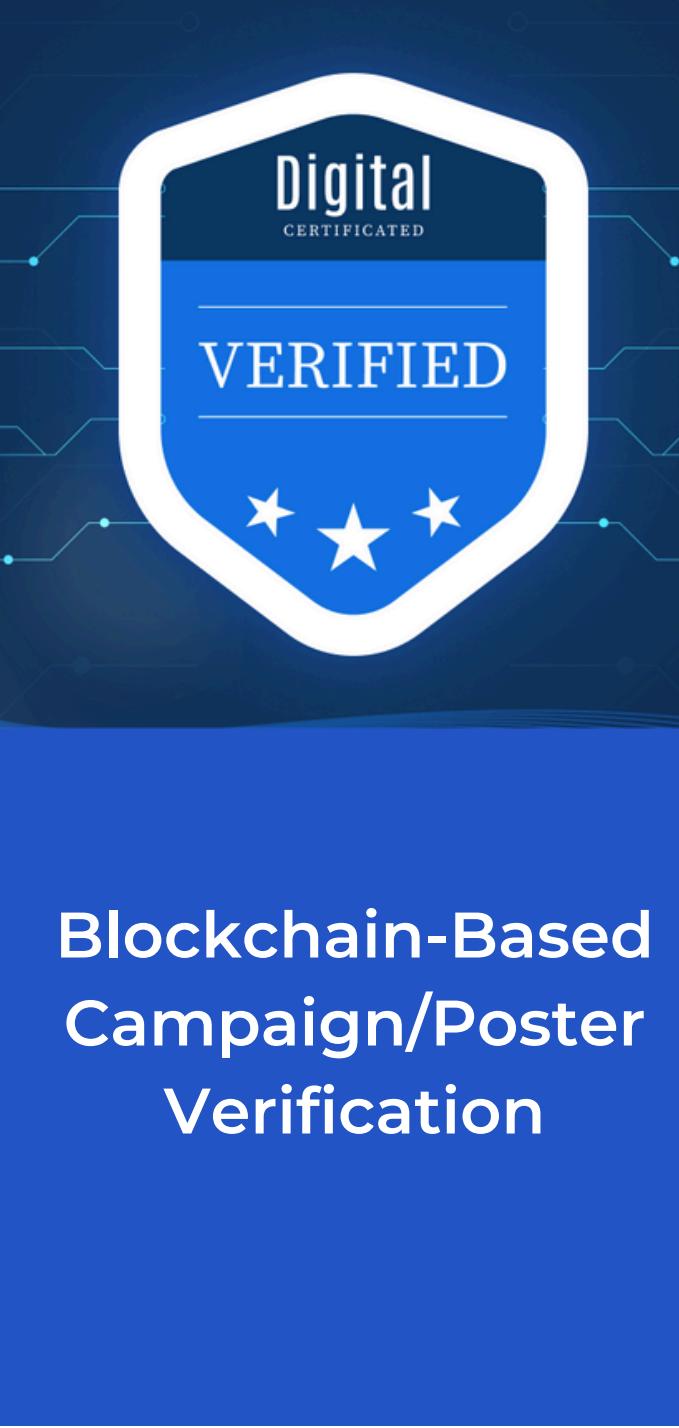

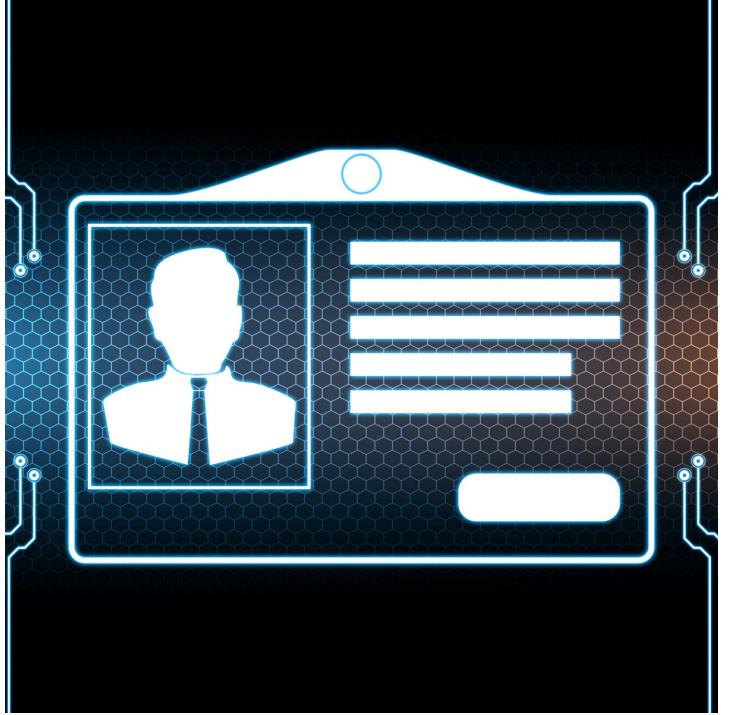

Zakat and Waqf fund pools.

## API Integration

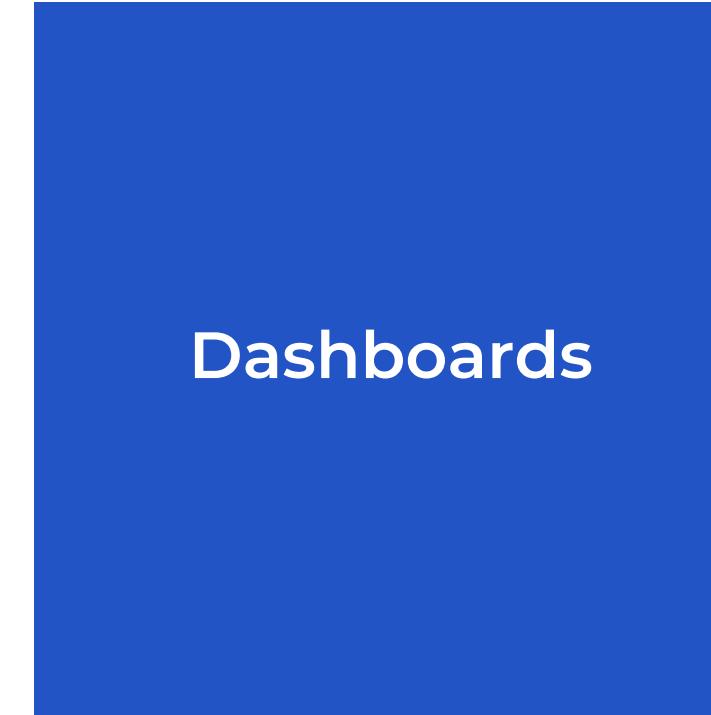

---

Integration to various charity websites and services.

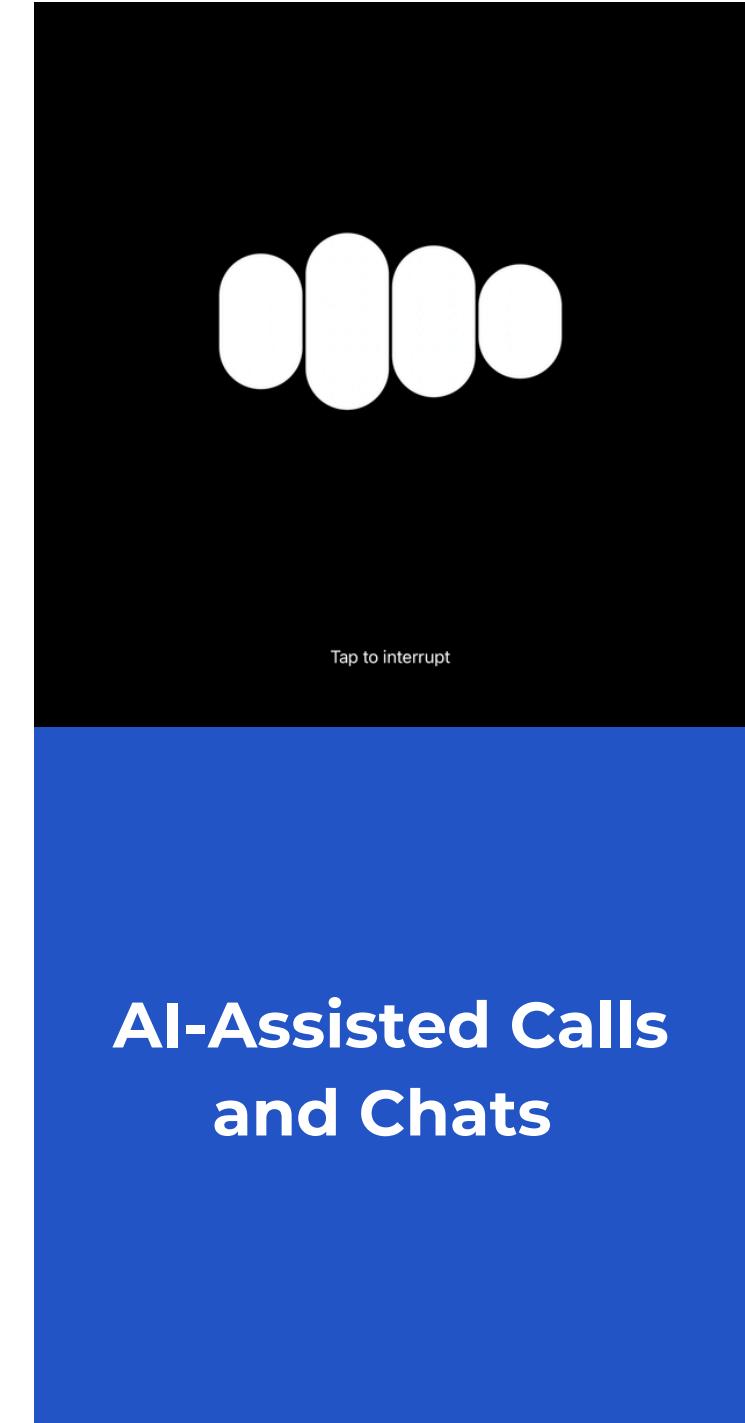

## MyDigitalID Integration

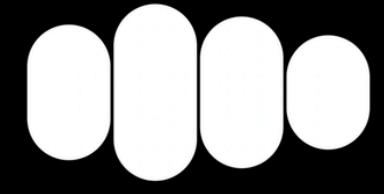

Blockchain-Based  
Campaign/Poster  
Verification

Dashboards

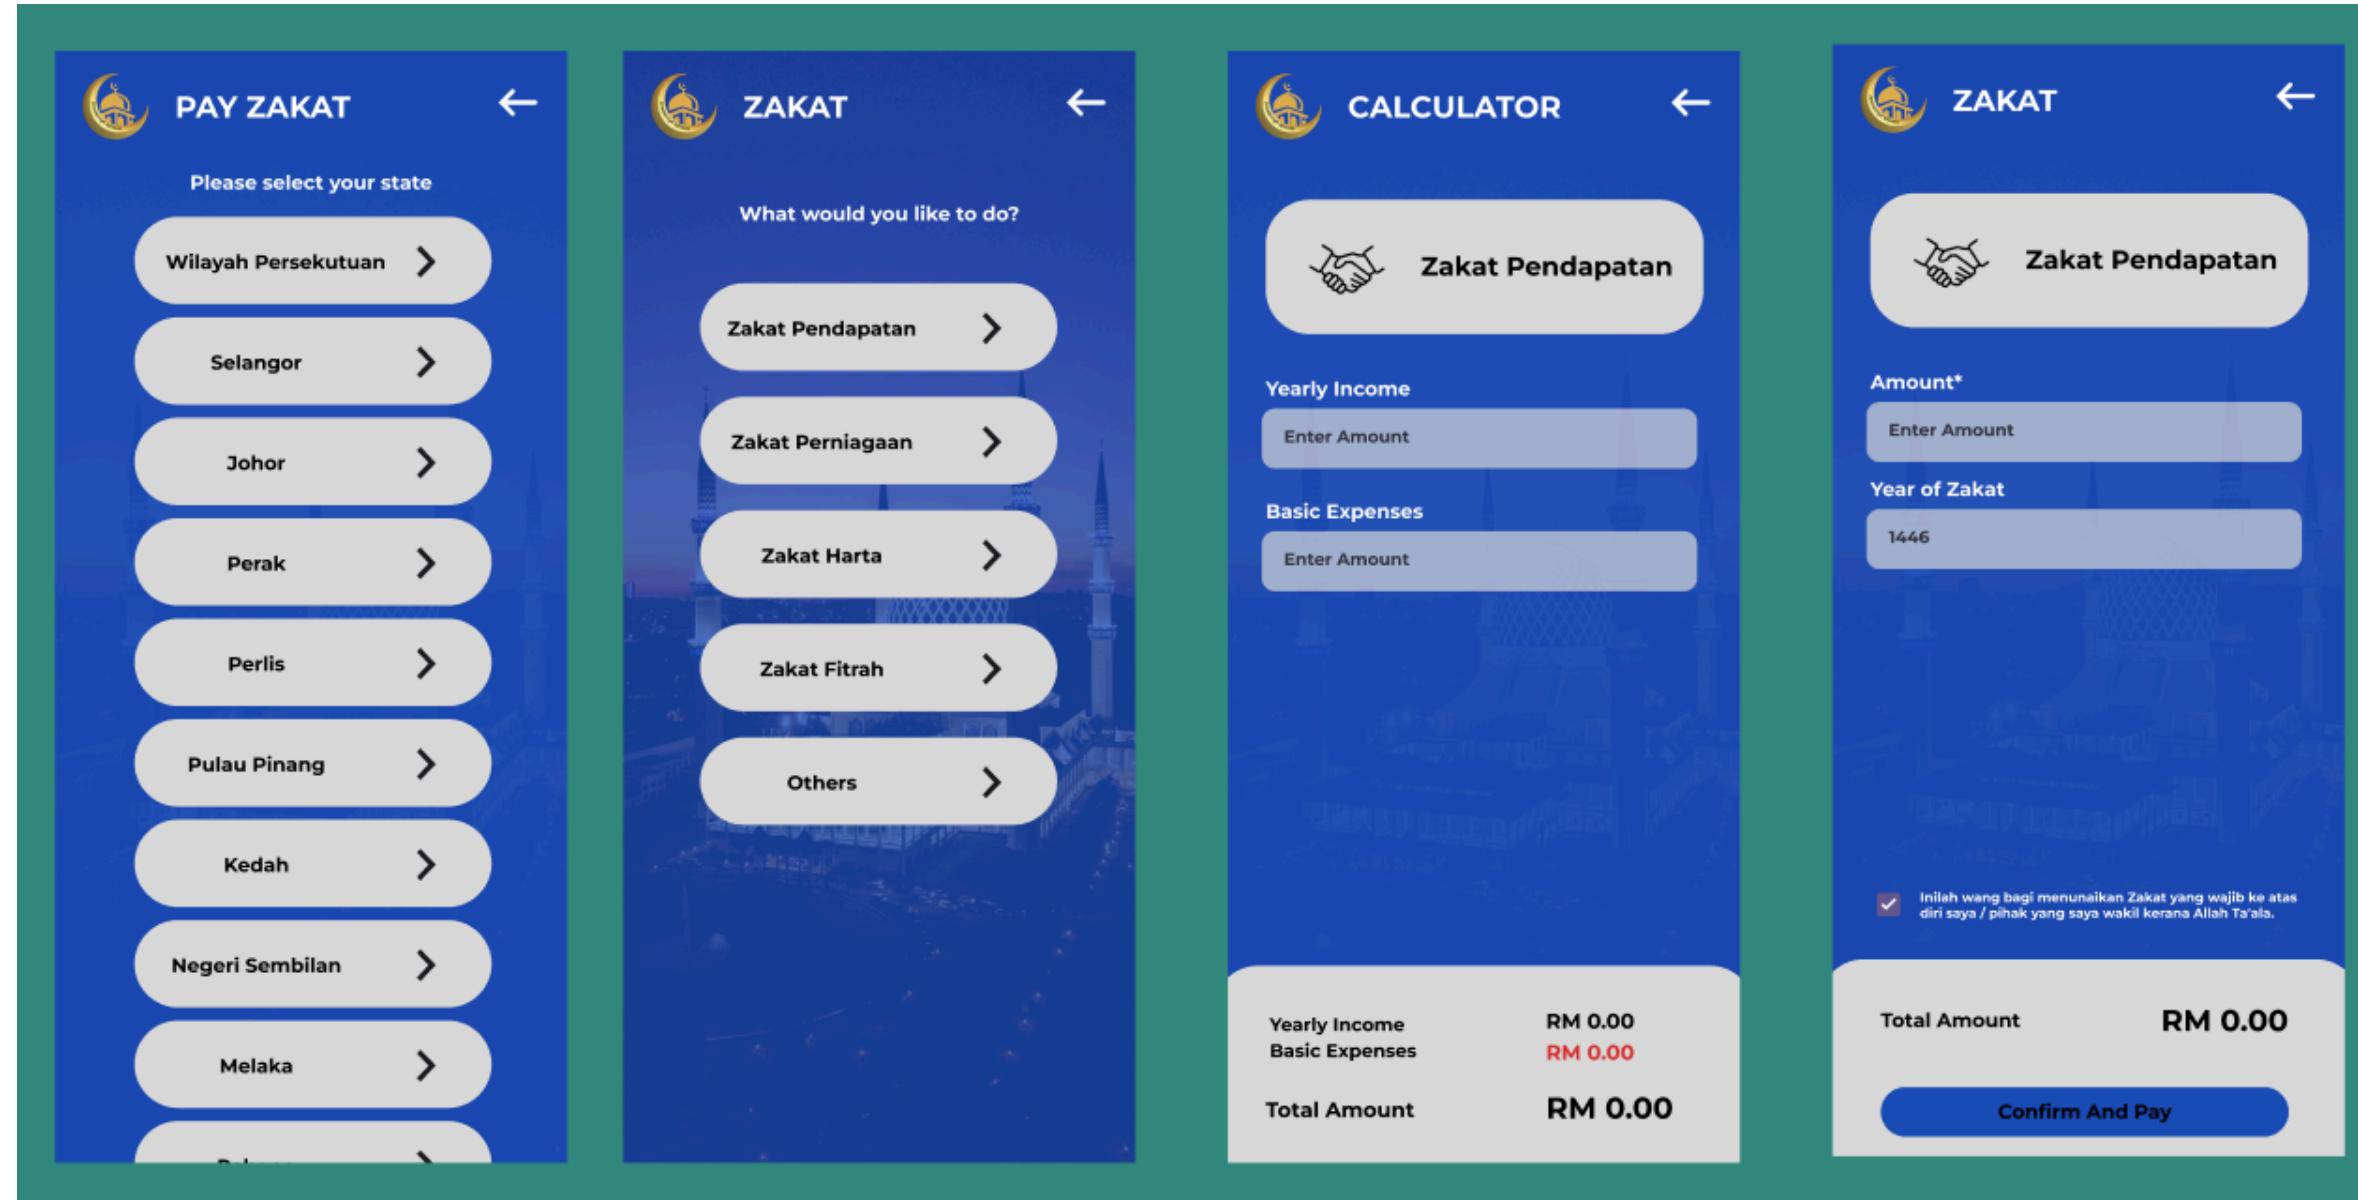

AI-Assisted Calls  
and Chats

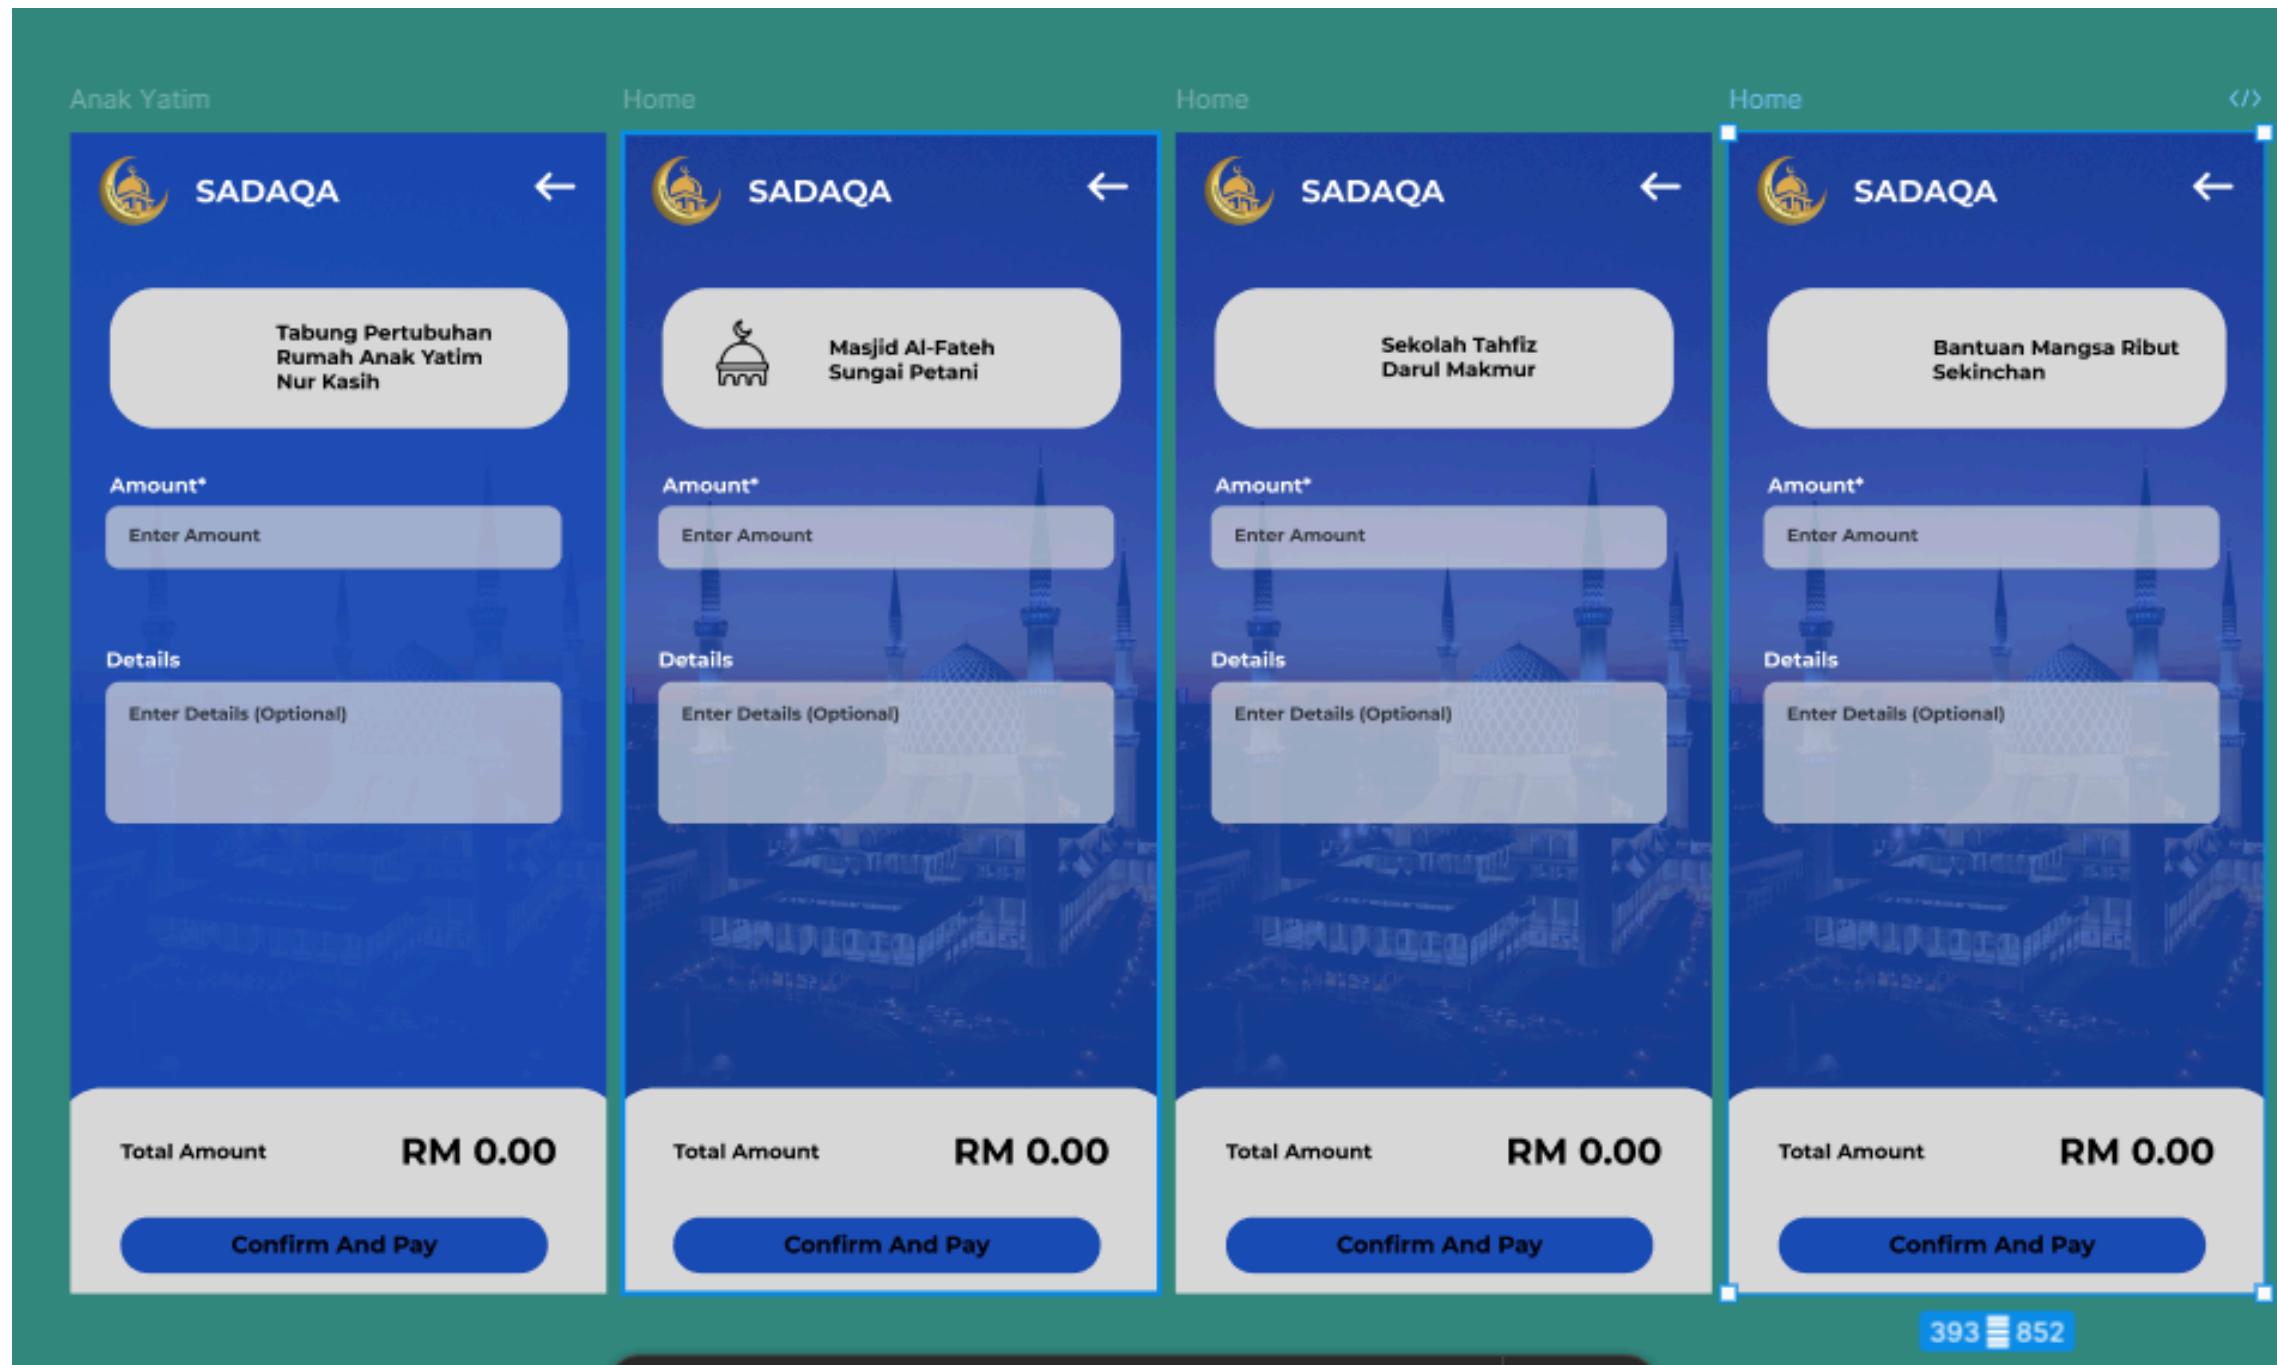

Tap to interrupt

# Basic Functionalities

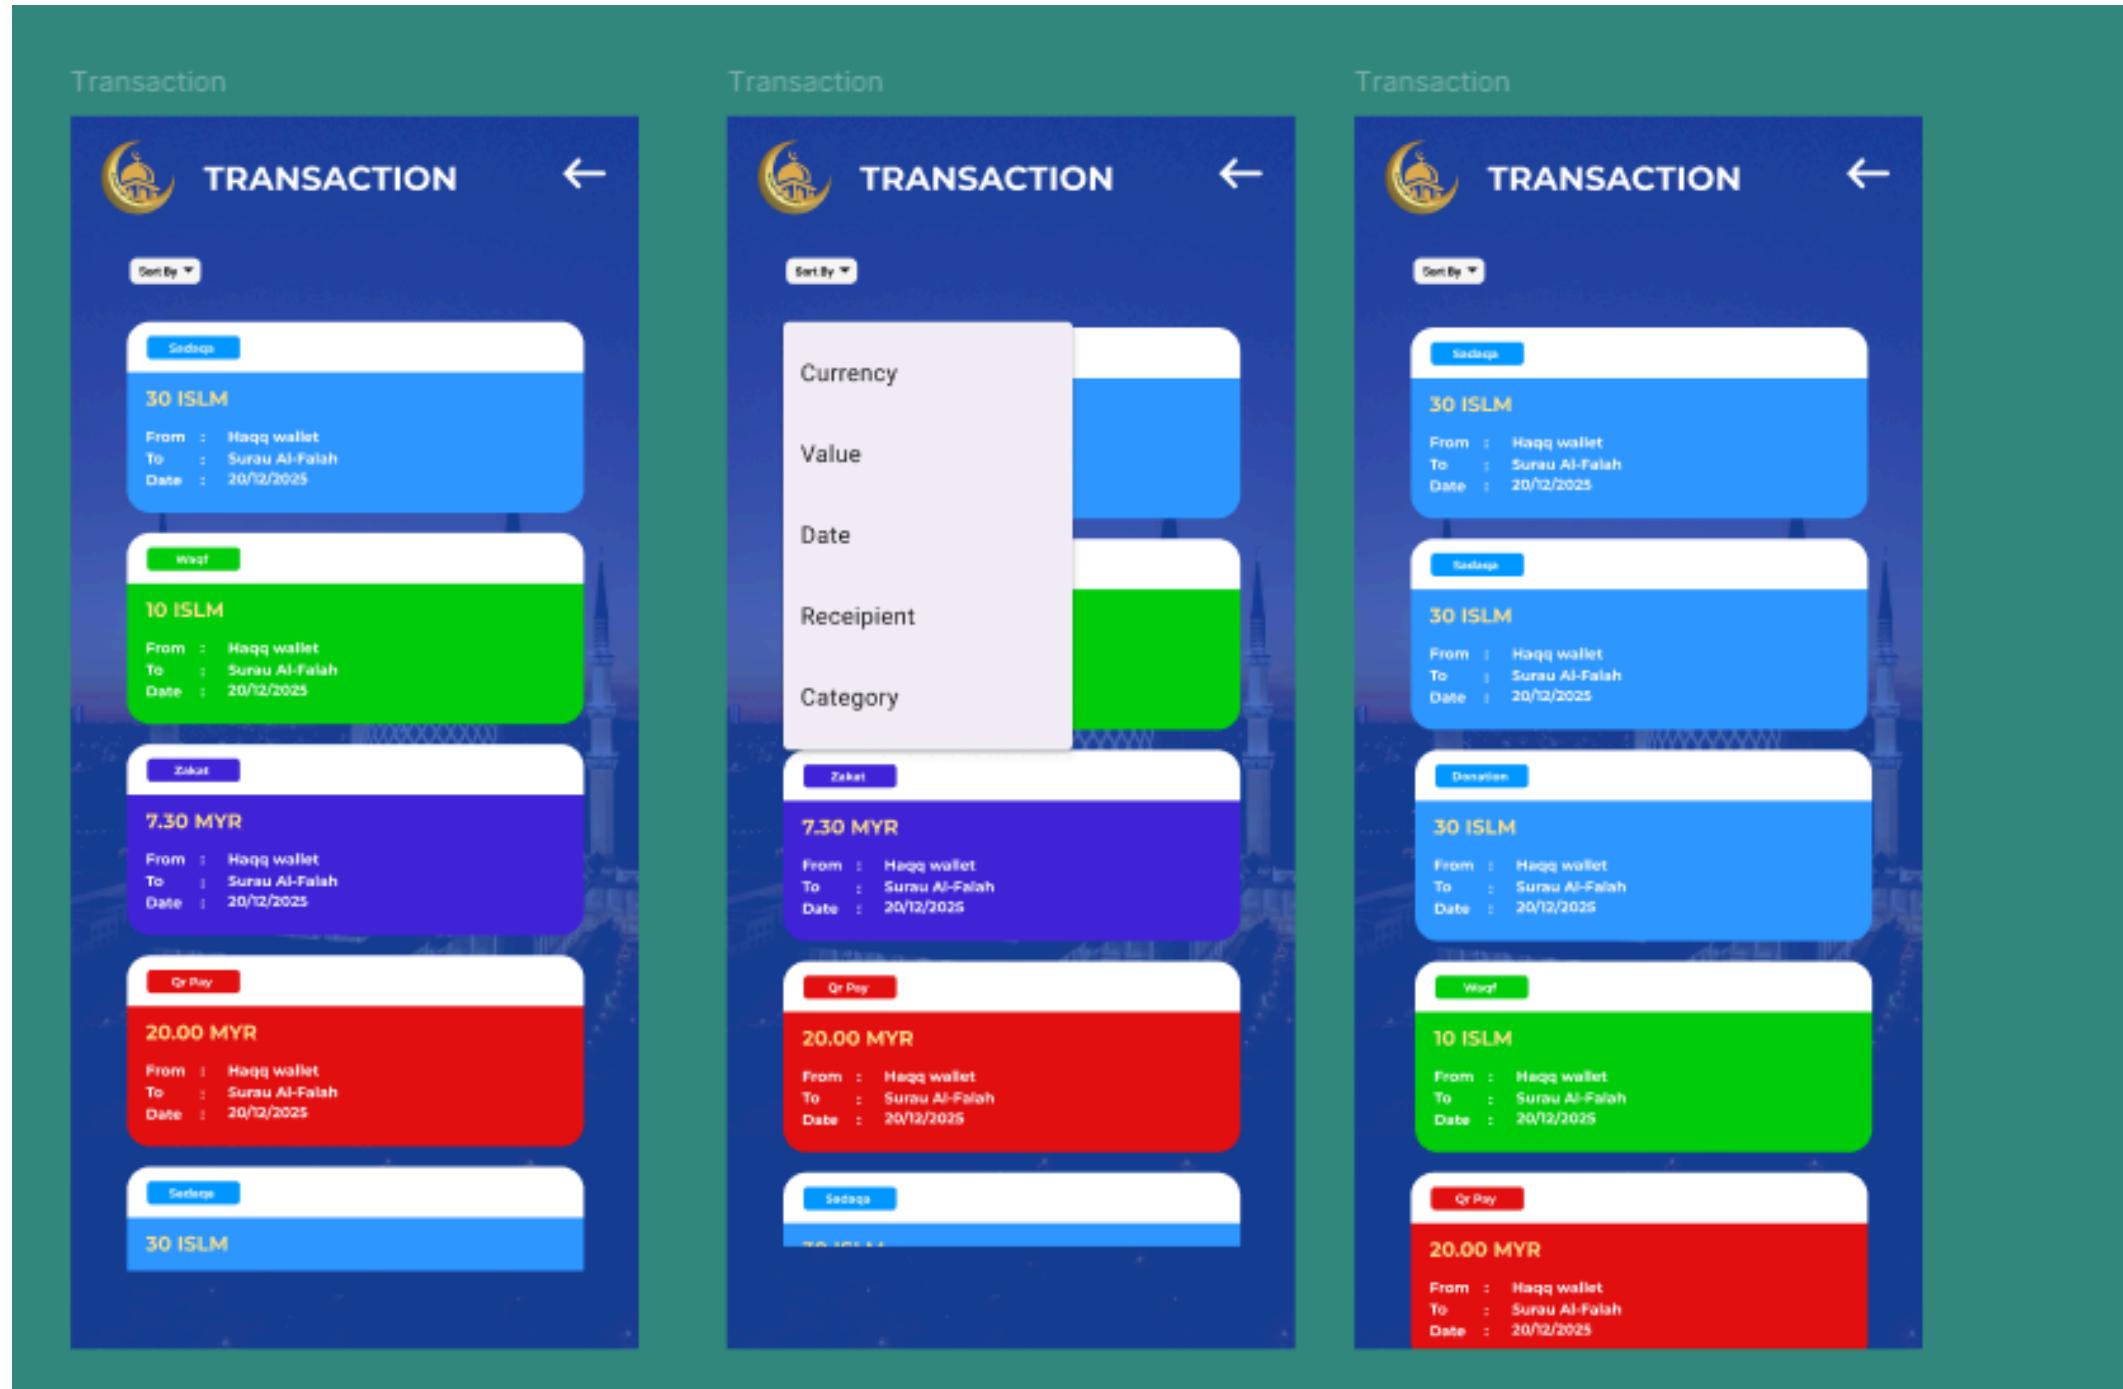

**Unified Zakat Payment**

# Basic Functionalities

Sadaqa

## Transaction History

# Blockchain Ledger

 **Public Ledger**

As of now, there is  
**RM 15,493.64 allocated.**

Transactions	Total Blocks	Total Funds
2764	5343	RM

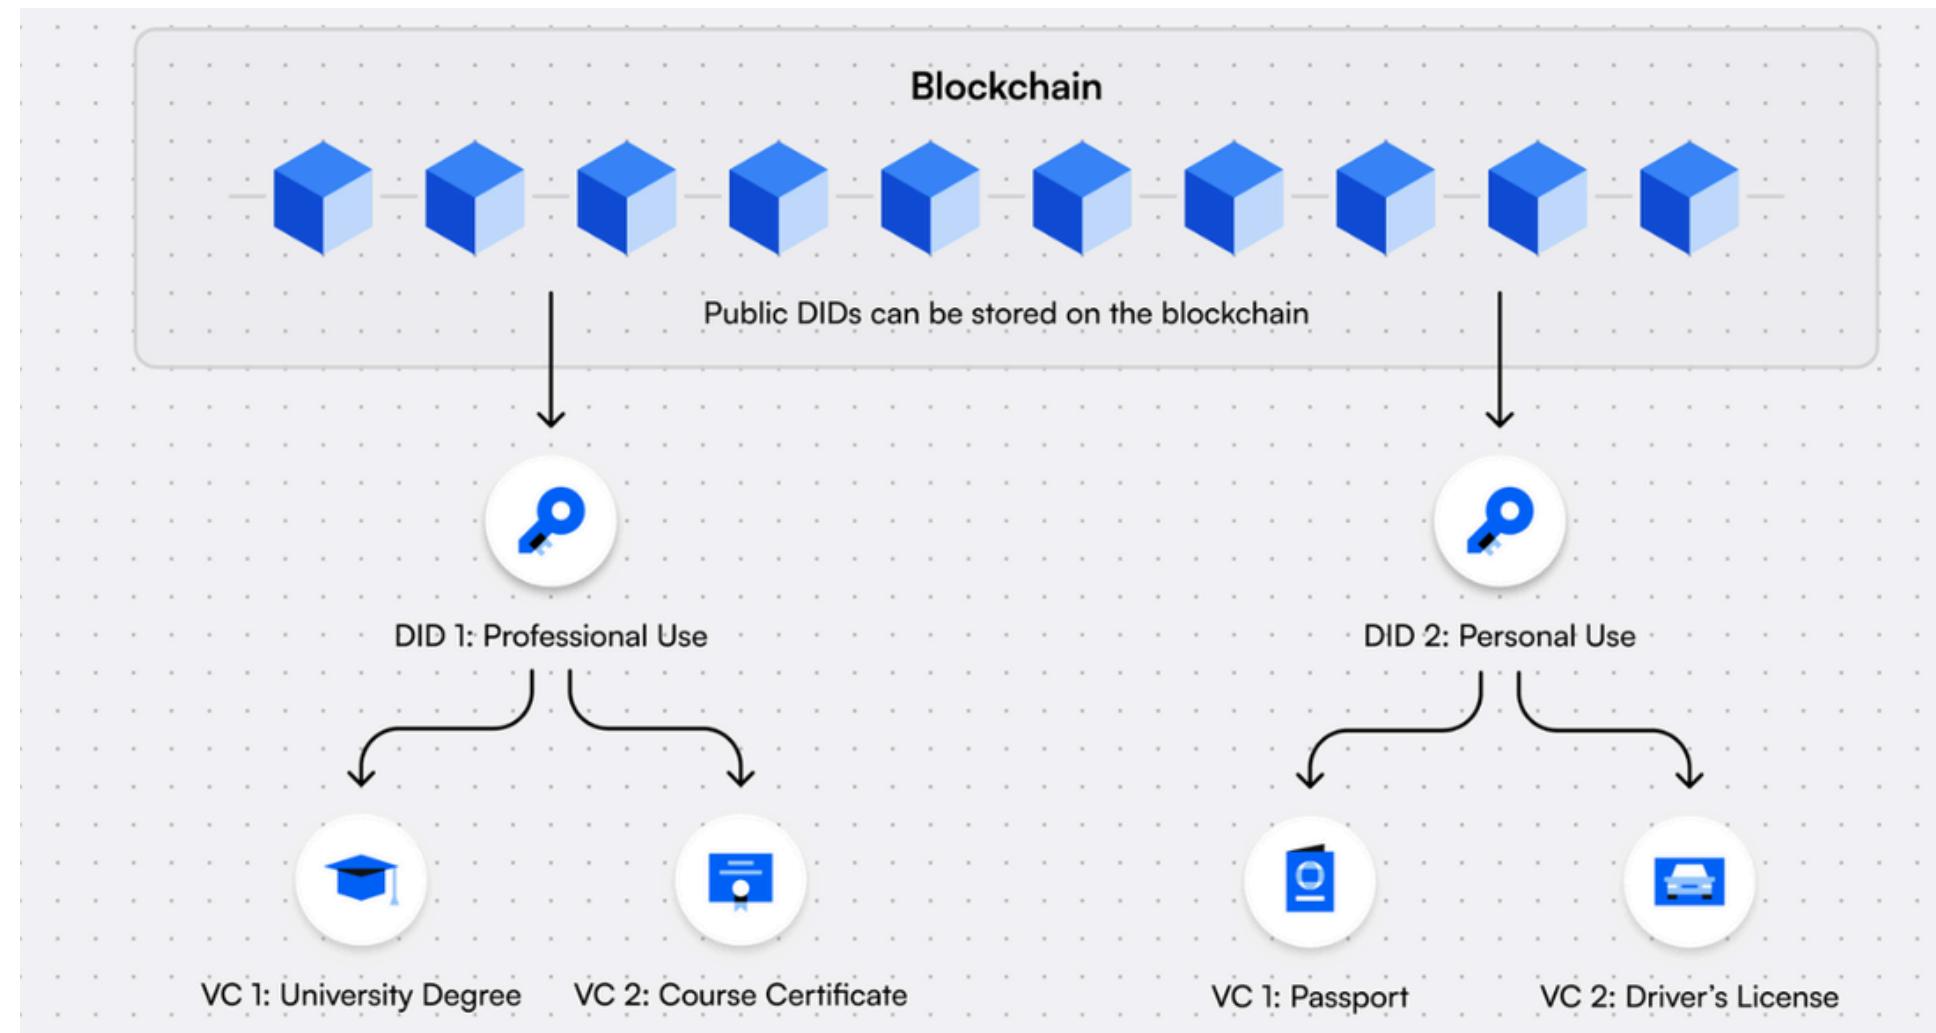

**Latest Blocks** →

 5343 12 minutes ago	<a href="#">abjung12</a> RM 10.00
 5342 12 minutes ago	<a href="#">h4isha</a> RM 10.00
 5341 12 minutes ago	<a href="#">dandly</a> RM 10.00
 5340 12 minutes ago	<a href="#">imnotman</a> RM 10.00

**Latest Transactions** →

 0xc95438 12 minutes ago	From 0xc3272 To 0xc3462	RM 10.00
 0xc84598 12 minutes ago	From 0xc3272 To 0xc3462	RM 32.00

# Blockchain-Based Campaign Certification

# Conclusion

## Accessible to everyone

Everyone can choose their own desired charity with a tap

## Unified payment

Decluttered system

## Centralised Zakat in Malaysia

All states and kind of zakat payment all in one app

## Next gen of Islamic investment

Not only providing multiple payment options, but also a window for investment
